Subject: Duke Power Rate Increase

I am a retired senior citizen in Greenville, SC, and have only Social Security as my source of income. Please DO NOT grant Duke Power the 17% raise in monthly rates that they are asking. I have necessary heart medications I must buy, and cannot afford to pay more for electric than I am currently paying. It is not fair to pass on such costs during this period of time especially. We have not had a COST OF LIVING ADJUSTMENT for two years now, to help compensate, and won't be getting one for 2012 either.

Please say no to Duke Power
